Michael A. Brown, General Counsel

Interpretation of Regulations for Enforcement of Children's Sleepwear Standard for Sizes 0 - 6X (§ 302.19, published February 7, 1974)

For your information, this office has rendered an advisory opinion interpreting sections (b)(1) and (b)(2) of the referenced regulations to require appropriate labeling by manufacturers of fabric and manufacturers of garments subject to the standard. This means that a fabric manufacturer must affix the appropriate label prior to selling the fabric to a garment manufacturer. The garment manufacturer must also affix an appropriate label prior to sale.

Harry Garber of BCM and Walt Thomas of OSCA have concurred in this interpretation.
