MEMORANDUM

DATE: JUN 02 1995

TO : Larry Blend, Compliance Officer
Dallas Satellite Office

Through: Robert G. Roth, Director
Division of Regulatory Management

FROM : Pamela C. Major, Compliance Officer
Division of Regulatory Management

SUBJECT: Slingking, Inc., Houston, Texas
T-865-7657; Launcher, #SK-100
T-865-7658; Junior Launcher, #SKJ-101
T-865-7659; Bomber, #SKB-500
T-865-7660; Cannon, #BC-800
T-865-7881; Water Balloons, #WR-101
T-865-7882; Water Balloons, #WB-202

On 5/18/95 CRM received the above referenced samples collected by Ralph Morgan in response to a CRM program assignment. The staff has evaluated these products for compliance with the Consumer Safety Protection Act's labeling requirements for balloons.

It is the staff's conclusion that the above samples (excluding T-865-7881 and 7882 Water Balloons) do not comply with the labeling requirements of the CSPA.

Please issue a LOA requesting the firm to stop distribution of the above balloon launching devices (excluding T-865-7881 and 7882) packaged after January 1, 1995, and to correct future production by applying cautionary labeling consistent with the requirements of the CSPA.

The packages of balloons included with the above launching devices carry the required cautionary label. However, the CSPA requires that the cautionary statement be displayed on the immediate package as well as on any outer package unless the required label on the immediate package is clearly visible through the outer container. Since the required warning is not always visible through the outer package, the required warning must also appear on the principal display panel of the product's outer package, and on the descriptive material which accompanies the product.

MFR/PRVLR NOTIFIED 2/24/97
✓ No Comments made
Comments attached
Excisions/Revisions
✓ Firm has not requested further notice

Therefore, the firm should be requested to stop distribution and to apply the cautionary statement for balloons on the principal display panel of the outer packages of the balloon launching products containing balloons packaged after January 1, 1995. We would, however, allow the firm to use their current supply of instruction sheets but that the required cautionary statement for balloons be included on the instruction sheet at their next printing.

cc: Jean Kennedy, CCA
Frank Krivda, CRM
