Anchor Hocking Corporation
St. Paul, Minnesota 55102

Dear Anchor Hocking,

My kindergartner does not eat sandwiches. Luckily his class has access to a microwave oven so he can take Cup O'Soup, macaroni and cheese, instant oatmeal, etc. for lunch. For only this purpose I bought a 4 pack of your 8 oz. MICROWAVE LONG LIFE RAMEKINS and LIDS. These are definitely not long life. Within 2 weeks of purchase, the handle of one broke off when we tried to put the lid on. The piece is enclosed. The edges of the others have begun to chip away. Please understand that these are only being used in a 5 year olds lunch box.

My disappointment in your product is secondary to my worry that my 5 year old will ingest a piece of this "mellow white CHILL THERM material": he could break a tooth if he bites into a peice; if he doesn't chew his food well he could choke on a piece; or he could cut his mouth, throat or any number of parts of his little body between his top and bottom end.

I expect you to stand behind your product and refund my purchase price of $2.99 plus 5% tax of .15 for a total of $3.14

I would also like to suggest that you do some further testing on the durability of this product.

Sincerely,

[redacted]
