

⚠ WARNING:
CHOKING HAZARD — Small parts not for children under 3 years or any individuals who have a tendency to place inedible objects in their mouths.

Report product incidents and injuries to CPSC:
SaferProducts.gov
(800) 638-2772
or (301) 595-7054
(for deaf or hard of hearing individuals and/or individuals with speech and language disorders)

Safety at Home

Toys

To prevent choking or other hazards, only give your children toys that are meant for their age. How do you know what age? Look for the label on the toy.

Keep toys for older children away from the younger ones.

Toys must have age labels if the toy is a choking hazard for children under 3 years old.
