7 Highly Effective Portable Heater Safety Habits

1. Keep all sides of the heater at least 3 feet from beds, clothes, curtains, papers, sofas and other items that can catch fire.
2. Never run the heater's cord under rugs or carpeting and never power the heater with an extension cord or power strip.
3. Make sure the heater is not near water. NEVER touch it if you are wet.
4. Place the heater on a stable, level surface, located where it will not be knocked over.
5. Never leave the heater operating while unattended or while you are sleeping.
6. If the heater's cord or plug is HOT, disconnect the heater and contact an authorized repair person. If any part of the outlet is hot, contact a certified electrician.
7. Check [SaferProducts.gov](https://www.saferproducts.gov) to see if your electric heater has been recalled.
