## COUNCIL ON ENVIRONMENTAL QUALITY

### National Ocean Council; Strategic Action Plan Content Outlines

**AGENCY:** Council on Environmental Quality.

**ACTION:** Notice of Availability, Strategic Action Plan Content Outlines; Request for Comments.

**SUMMARY:** On July 19, 2010, President Obama signed Executive Order 13547 establishing a National Policy for the Stewardship of the Ocean, our Coasts, and the Great Lakes (“National Ocean Policy”). The National Ocean Policy provides an implementation strategy, which describes nine priority objectives that seek to address some of the most pressing challenges facing the ocean, our coasts, and the Great Lakes. The National Ocean Council is responsible for developing strategic action plans for each of the nine priority objectives. As a first step, Federal interagency writing teams have developed content outlines for each draft strategic action plan. The NOC is seeking public review and comment of these content outlines.

The purpose of the draft content outlines (outlines) is to provide the public with an initial view of potential actions that could be taken to further the national priority objectives. As such, they are an interim step toward development of the first full draft of each strategic action plan. In developing the outlines, the writing teams were informed by the comments received during an initial public scoping period that closed on April 29.

Each outline presents in bulleted form potential actions to further the particular priority objective. It describes the reasons for taking the action, expected outcomes and milestones, gaps and needs in science and technology, and the timeframe for completing the action. The outlines also provide an overview of the priority objective, greater context for the strategic action plan in implementing the National Ocean Policy, and an overview of the preparation of the plan.

Public comments received on the outlines will be collated and posted on the NOC Web site. The comments on the outlines will inform the preparation of full draft strategic action plans, which will be released for public review in the fall of 2011, allowing additional opportunity for the public to provide comments. Final strategic action plans are expected to be completed by early 2012.

**DATES:** Comments should be submitted on or before July 2, 2011.

**ADDRESSES:** Content outlines can be downloaded here: <http://www.whitehouse.gov/administration/eop/oceans>. Comments should be submitted electronically at <http://www.WhiteHouse.gov/administration/eop/oceans/comment> or can be sent by mail to: National Ocean Council, 722 Jackson Place, NW., Washington, DC 20503. Comments and input may also be provided in person by participating in regional listening sessions that will be convened throughout the U.S. in the month of June. You can learn more about these regional listening sessions by visiting <http://www.WhiteHouse.gov/oceans>.

**SUPPLEMENTARY INFORMATION:** On July 19, 2010, President Obama signed Executive Order 13547 establishing a National Policy for the Stewardship of the Ocean, our Coasts, and the Great Lakes (“National Ocean Policy”). That Executive Order adopts the Final Recommendations of the Interagency Ocean Policy Task Force and directs Federal agencies to take the appropriate steps to implement them. The Executive Order creates an interagency National Ocean Council (NOC) to strengthen ocean governance and coordination, identifies nine priority actions for the NOC to pursue, and adopts a flexible framework for effective coastal and marine spatial planning to address conservation, economic activity, user conflict, and sustainable use of the ocean, our coasts, and the Great Lakes.

The National Ocean Policy provides a comprehensive approach, based on science and technology, to uphold our stewardship responsibilities and ensure accountability for our actions to present and future generations. The Obama Administration intends, through the National Ocean Policy, to provide a model of balanced, productive, efficient, sustainable, and informed ocean, coastal, and Great Lakes use, management, and conservation. The Final Recommendations provide an implementation strategy that describes a clear set of priority objectives that our Nation should pursue to further the National Policy.

The nine priority objectives seek to address some of the most pressing challenges facing the ocean, our coasts, and the Great Lakes. The nine priority objectives are identified below. Additional information about each priority may be found at <http://www.WhiteHouse.gov/oceans>.
