DESCRIPTION OF SERVICES: This Customer Agreement between the U. S. Consumer Product Safety Commission (the customer) and TASC Facilities Service Center, entered into under the statutory authority of 49 USC 227, provides a written understanding of the transit benefit program services TASC Transportation Services (TRANServe) will provide to the customer. TASC TRANServe will administer the customer's Transit Benefit Program in locations designated by the customer. TRANServe will provide liaison with the Washington Metropolitan Area Transit Authority and with regional transit providers and will order, purchase, verify, maintain, and safeguard fare media prior to disbursing to participants. TRANServe shall bear full responsibility for any fare media that is in its possession prior to disbursement to participants.

TRANServe will provide disbursing agents to cover distribution hours agreed upon by the customer and TRANServe. In the regional offices, fare media will be sent via courier to representatives designated by the customer for distribution. At the request of the customer, TRANServe will send disbursing agents to regional locations. Each disbursing agent will be billed at \$18.00 per hour for either mailing or on-site distribution. Estimated distribution hours include preparation, balancing, and travel time. All expenditures made on behalf of the customer except for distribution services (e.g., fare media, fare media voucher fees, shipping, travel costs, etc.) will be subject to the 4.75% financial management fee.

FUNDING/REPORTING: TASC will provide an estimated quarterly bill to the customer NLT 30 days before the commencement of each quarter of the fiscal year using the IPAC system. These quarterly bills will be adjusted throughout the year as necessary. Actual monthly expenses will be applied to the quarterly bill amounts, and the customer will be provided account activity reports by the 25th of each month detailing the amount applied to the estimated quarterly bill. DOT-TASC Finance will also provide the customer's point of contact, identified on this agreement, a copy of the account activity reports along with the SF-1081s which document the IPAC payments. This agreement may be amended after approval by both the customer and TASC if experience shows more or less service is required. Changes may be pen and ink and shall be initiated by both the customer and TASC. Estimated costs for the customer's transit benefit program are shown below:
