**NON-CPSC ATTENDEE(S): Various academic, industry, government, and public
interest group representatives.**

**SUMMARY OF MEETING: The objective of the meeting was to assemble a panel
of experts from various disciplines to develop a consensus on the current
validation status of FETAX as a screening method for identifying developmental
toxicants as described in the FETAX Background Review Document. A CPSC
toxicologist (Bittner) provided an overview of the FHSA and how CPSC might use
data from this assay in light of the requirements of the FHSA.**
