

FOR FURTHER INFORMATION CONTACT: Mr. Dan Waldeck, Pacific Fishery Management Council; (503) 820-2280.

SUPPLEMENTARY INFORMATION: The primary purpose of these work sessions is to review the current Pacific mackerel stock assessment and develop harvest guideline and seasonal structure recommendations for the 2003-04 fishery. The 2003 CPS stock assessment and fishery evaluation (SAFE) document might also be discussed.

Although nonemergency issues not contained in the CPSMT and CPSAS meeting agenda may come before the CPSMT and CPSAS for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the CPSMT's or CPSAS's intent to take final action to address the emergency.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Ms. Carolyn Porter at (503) 820-2280 at least 5 days prior to the meeting date.

Dated: April 29, 2003.

Matteo J. Milazzo,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-S

CONSUMER PRODUCT SAFETY COMMISSION

Collection of Information; Proposed Extension of Approval; Comment Request—Follow-Up Activities for Product-Related Injuries

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: As required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Consumer Product Safety Commission requests comments on a proposed extension of approval of a collection of information from persons who have been involved in or have witnessed incidents associated with consumer products. The Commission will consider all comments received in response to this notice before requesting an extension of approval of this

collection of information from the Office of Management and Budget.

DATES: The Office of the Secretary must receive comments not later than July 7, 2003.

ADDRESSES: Written comments should be captioned "Product-Related Injuries" and mailed to the Office of the Secretary, Consumer Product Safety Commission, Washington, DC 20207, or delivered to that office, Room 502, 4330 East-West Highway, Bethesda, Maryland 20814. Written comments may also be sent to the Office of the Secretary by facsimile at (301) 504-0127 or by e-mail at cpsc-os@cpsc.gov.

FOR FURTHER INFORMATION CONTACT: For information about the proposed extension of approval of the collection of information, or to obtain a copy of any of the interview guides or forms used for this collection of information, contact Linda L. Glatz, Office of Planning and Evaluation, Consumer Product Safety Commission, Washington, DC 20207; telephone (301) 504-7671; e-mail lglatz@cpsc.gov.

SUPPLEMENTARY INFORMATION:

A. Background

Section 5(a) of the Consumer Product Safety Act, 15 U.S.C. 2054(a), requires the Commission to collect information related to the causes and prevention of death, injury, and illness associated with consumer products. That legislation also requires the Commission to conduct continuing studies and investigations of deaths, injuries, diseases, other health impairments, and economic losses resulting from accidents involving consumer products. The Commission uses this information to support development and improvement of voluntary standards, rulemaking proceedings, information and education campaigns, and administrative and judicial proceedings. These safety efforts are vitally important to help make consumer products safer and to remove unsafe products from the channels of distribution and from consumers' homes.

Persons who have sustained injuries or who have witnessed safety-related incidents associated with consumer products are an important source of safety information. From consumer complaints, newspaper accounts, death certificates, hospital emergency room reports, and other sources, the Commission investigates a limited number of incidents. These investigations may involve face-to-face or telephone interviews with accident victims or witnesses. The Commission also receives information about product-related injuries from persons who

provide written information by using forms displayed on the Commission's internet web site or printed in the *Consumer Product Safety Review* and other Commission publications.

The Office of Management and Budget (OMB) approved the collection of information concerning product-related injuries under control number 3041-0029. OMB's most recent extension of approval will expire on July 31, 2003. The Commission now proposes to request an extension of approval, with changes, of this collection of information. As explained below, the changes consist of a net addition of 1,772 burden hours.

B. Estimated Burden

The Commission staff obtains information about incidents involving consumer products from approximately 14,100 persons annually. The staff conducts face-to-face interviews at incident sites with approximately 500 persons each year (up from 400 persons in 2000). On average, an on-site interview takes approximately 5 hours. The staff will also conduct approximately 3,200 in-depth investigations by telephone. Each in-depth telephone investigation requires approximately 20 minutes. Additionally, the Commission's hotline staff interviews approximately 5,200 persons each year about incidents involving selected consumer products (up from 2000's estimate of 4,000). These interviews take an average of 10 minutes each. Each year, the Commission also receives information from about 5,200 persons (up from 2000's estimated 2,500) who complete forms requesting information about product-related incidents or injuries. These forms appear on the Commission's internet web site and are printed in the *Consumer Product Safety Review* and other Commission publications. The staff estimates that completion of the form takes about 12 minutes.

The Commission staff estimates that this collection of information imposes a total annual burden of 5,472 hours on all respondents: 2,500 hours for face-to-face interviews; 1,066 hours for in-depth telephone interviews; 1,040 hours for completion of written forms; and 866 hours for responses to Hotline telephone questionnaires.

The Commission staff estimates the value of the time of respondents to this collection of information at \$23.44 an hour. This is based on the September 2002 Bureau of Labor Statistics, Department of Labor cost for employee compensation, private industry, state and local government. At this valuation,

the estimated annual cost to the public of this information collection will be about \$128,263.

C. Request for Comments

The Commission solicits written comments from all interested persons about the proposed collection of information. The Commission specifically solicits information relevant to the following topics:

- Whether the collection of information described above is necessary for the proper performance of the Commission's functions, including whether the information would have practical utility;
- Whether the estimated burden of the proposed collection of information is accurate;
- Whether the quality, utility, and clarity of the information to be collected could be enhanced; and
- Whether the burden imposed by the collection of information could be minimized by use of automated, electronic or other technological collection techniques, or other forms of information technology.

Dated: April 25, 2003.

Todd A. Stevenson,

Secretary, Consumer Product Safety Commission.

BILLING CODE 6355-01-P

DEPARTMENT OF DEFENSE

Department of the Army

Notice of Availability of the Chemical and Biological Defense Program (CBDP) Draft Programmatic Environmental Impact Statement (DPEIS)

AGENCY: U.S. Army Medical Research and Materiel Command (USAMRMC), Department of the Army, DoD.

ACTION: Notice of availability.

SUMMARY: The Army has prepared a DPEIS covering the execution of an integrated CBDP designed to protect our soldiers, sailors, marines, and airmen from the evolving chemical and biological (CB) threats they may encounter on the battlefield. The DPEIS evaluates the potential environmental impacts associated with the execution of the DoD CBDP. The National Defense Authorization Act for Fiscal Year 1994 mandated the coordination and integration of all DoD CB defense programs. The Army is the executive agency for the CBDP.

DATES: The public comment period for the DPEIS will end 45 days after

publication of the Notice of Availability in the **Federal Register** by the U.S. Environmental Protection Agency.

ADDRESSES: Written comments or requests for copies of the DPEIS may be made to Ms. JoLane Souris, Environmental Coordinator, U.S. Army Medical Research and Materiel Command, Attn: MCMR-ZC-S, 504 Scott Street, Fort Detrick, MD 21702-5012 or visit the CBDP DPEIS Web site at <http://chembioeis.detrack.army.mil>.

FOR FURTHER INFORMATION CONTACT: Ms. JoLane Souris by calling (301) 619-2004 or by fax at (301) 619-6627.

SUPPLEMENTARY INFORMATION: The mission of the DoD CBDP is to provide CB defense capabilities to allow the military forces of the United States to survive and successfully complete their operational missions in battle space environments contaminated with CB warfare agents. If our military forces are not fully and adequately prepared to meet this threat, the consequences could be devastating. The CBDP to support this mission comprises research, development, and acquisition activities. Some of these CBDP activities necessarily involve the use of hazardous chemicals or infectious disease agents for research, development, and production purposes. The controls on and the potential environmental consequences of such use for both the proposed action and the alternative were primary focuses of the CBDP DPEIS.

The activities take place at numerous military installations and contractor facilities throughout the United States. Details concerning the CBDP are contained in the CBDP Annual Report to Congress, April 2002 at <http://www.acq.osd.mil/cp/reports.html>. The proposed action consists of the execution of an integrated CBDP designed to protect our soldiers, sailors, marines, and airmen from the evolving CB threats they may encounter on the battlefield. The no action alternative, continuation of current CBDP operations as described in and covered by existing environmental analyses, also was evaluated. No other alternatives were identified during the public scoping process.

Although numerous environmental documents dating back to the Biological Defense Research Program Final PEIS (April 1989) have been prepared analyzing the potential environmental consequences of various elements of the CBDP, no one document analyzes the potential environmental impacts of the full range of CBDP activities. In keeping with the purposes of NEPA, DoD has now prepared such a document in the

form of the CBDP DPEIS. This document creates an overarching framework that will continue to ensure fully informed Government decision making within the CBDP and will provide a single, up-to-date information resource for the public.

Comments, including names and addresses of respondents, will be available for public review during regular business hours at the address shown in the **ADDRESSES** section of this Notice. Individual respondents may request confidentiality. If you wish to withhold your name and address from public review or disclosure, you must state this prominently at the beginning of your comment. Such requests will be honored to the extent allowed by law. Anonymous comments, however, will not be considered. All submissions from organizations or businesses and from individuals identifying themselves as representatives or officials of organizations or businesses will be made available for public inspection in their entirety.

Dated: April 28, 2003.

Raymond J. Fatz,

Deputy Assistant Secretary of the Army (Environment, Safety and Occupational Health) OASA(I&E).

BILLING CODE 3710-08-M

DEPARTMENT OF ENERGY

Bonneville Power Administration

South Fork Flathead Watershed/Westslope Cutthroat Trout Conservation Program

AGENCY: Bonneville Power Administration (BPA), Department of Energy (DOE).

ACTION: Notice of intent to prepare an Environmental Impact Statement (EIS).

SUMMARY: This notice announces BPA's intention to prepare an EIS on removal of all fish from selected lakes in the South Fork of the Flathead River drainage that harbor non-native species that threaten to genetically contaminate native fish in streams leading from those lakes, down into the South Fork Flathead River and Hungry Horse Reservoir. The specific lakes proposed for treatment are located in the Montana Counties of Flathead, Missoula, and Powell. This proposed action would take place within floodplains and waters located directly adjacent to and below the high water marks of these lakes.

DATES: Written comments are due to the address below no later than June 19,
