STATEMENT OF WORK

NATIONAL ELECTRONIC INJURY SURVEILLANCE SYSTEM (NEISS)

1. DESCRIPTION OF SERVICES

The Contractor shall provide the Consumer Product Safety Commission (CPSC) with National Electronic Injury Surveillance System (NEISS) reports as specified in the contract line items and in accordance with the Performance Work Statement. These reports shall be coded and transmitted to CPSC via an encrypted personal computer supplied by the Government.

2. SERVICES AND PRICES

The Contractor shall provide pricing in accordance with Block 20, Schedule of Supplies/Services for all contract line item numbers.

3. CONTRACT TYPE

This is a fixed price, not to exceed contract for injury surveillance reports. It includes a base period and option years as noted on form 1449.

4. BACKGROUND

- A. The U.S. Consumer Product Safety Commission (CPSC) administers the Consumer Product Safety Act, the Flammable Fabrics Act, the Federal Hazardous Substances Act, the Poison Prevention Packaging Act, the Refrigerator Safety Act, and the Consumer Product Safety Improvement Act.
- B. The primary purpose of these acts is to protect the public against unreasonable risks of injury or death associated with consumer products. The Consumer Product Safety Act specifically states that the Commission will conduct research, studies, and investigations on the safety of consumer products and offer training in product safety investigation and test methods.
- C. The Commission collects information on injuries associated with consumer products by several data systems, including the National Electronic Injury Surveillance System (NEISS). This system consists of statistically selected hospitals that report information on product-associated emergency department cases to the Commission on a daily basis. Some hospitals use an employee to identify and code the relevant information and to transmit it electronically to CPSC via an encrypted personal computer provided by CPSC. Other hospitals elect to allow a third party to identify, code, and transmit the data. The data collected from the hospitals are compiled and provided to Commission analysts to identify consumer products that are associated with serious and/or prevalent injuries that are treated in hospital emergency departments. Since these data are collected from statistically selected hospitals, estimates can be projected to the national population as to the number and type of injuries involving individual consumer products. Manufacturers, distributors, retailers and consumers, as well as the Commission and other government agencies, use such data in de-identified form to assess the safety of consumer products, and to determine which products require further in-depth study to identify specific hazard patterns that may be associated with them.

D. When a product is selected for more in-depth study, the Commission supplements the basic emergency department data collected through the NEISS with a follow-up inquiry on selected injuries. In such a case, the victim's name, address and telephone number is obtained by the Commission from the hospital. The victim (or parent of child victim) is contacted and, with his/her consent, information about the product's use and causal factors is obtained. (Patient identification is destroyed by the Commission when the inquiry is completed.) By combining this information with the basic emergency department surveillance data, the Commission can better understand consumer product-related accidental injuries and evaluate specific hazard and injury patterns together with potential corrective actions.

E. The Consumer Product Safety Act provides that "No person shall be subject to civil liability to any person (other than the Commission or the United States) for disclosing information at the request of the Commission." 15 U.S.C. 2076(d).

5. OBJECTIVES

To provide the Commission with timely reports of consumer product-related injuries/deaths from the statistically selected hospitals who comprise the National Electronic Injury Surveillance System (NEISS). The reports, which provide the Commission the means for generating injury estimates of emergency visits for the United States and its territories, are used by the Commission:

- a) to study, analyze and investigate injuries associated with consumer products;
- b) to evaluate the effectiveness of regulations and standards, voluntary and mandatory, and other Commission actions (education programs, recalls, etc.), and
- c) to ascertain trends concerning new hazard/injury patterns.

6. PERFORMANCE WORK STATEMENT

Independently, and not as an agent of the U.S. Consumer Product Safety Commission (CPSC), the Contractor shall provide the personnel and facilities, except as provided in Section 11., GOVERNMENT FURNISHED MATERIALS/EQUIPMENT, necessary to electronically transmit, in a timely manner not to exceed 5 days, data on specified cases treated in the Contractor's emergency department.

A. NEISS SURVEILLANCED REPORTS

1. The Contractor shall establish a control system within the hospital to ensure that all consumer product-related physical injuries, injuries resulting in death, and dead-on-arrival cases, treated or otherwise processed by the hospital as emergency cases, will be reported to CPSC in the detail specified herein.
2. The Contractor shall review the hospital emergency case records in a timely manner, not to exceed 5 days, and code all "in-scope" cases as defined by the NEISS Coding Manual provided by the Government, and other categories of cases that CPSC may add on behalf of other Federal agencies.

3. The Contractor shall enter the coded information from the "in-scope" emergency department(s) cases to CPSC in a timely manner, not to exceed 5 days, into a personal computer. Transmission shall be via an encrypted personal computer supplied by CPSC and in accordance with the procedures specified by the CPSC. CPSC will provide the training and guidance on how to enter the data.
4. When the Contractor is notified by CPSC, by telephone or personal computer, that a specific transmitted case is one of the occasional cases selected for a follow-up inquiry, the Contractor shall supply the name, address and telephone number of the patient to the CPSC representative if the hospital allows such information to be supplied. No additional payment will be made to the Contractor for supplying this information. Follow-up inquiries will be performed by telephone or in person by representatives of CPSC or other Federal agencies. Such inquiries will only be performed on a small fraction of the Contractor's reported injury cases, i.e., approximately 1%. Patient identification information provided to CPSC will only be supplied to trained interviewers to permit them to gather additional etiologic or epidemiologic data about selected cases from the patient, relatives, or other individuals who might be aware of the detailed circumstances surrounding an injury. CPSC will keep the information as to identity of the victim confidential and remove patient identification information from reports and documents maintained by CPSC. CPSC will not supply patient identification information to other agencies without prior patient consent.

5. SPECIAL SURVEY REPORTS

CPSC may, from time to time, request the Contractor to temporarily provide additional information beyond that specified in the NEISS Coding Manual, (e.g., approximately 2 weeks before and after July 4th, CPSC requests the specific type of fireworks involved be noted in the narrative) in support of a special survey. Not more than six (6) special surveys will be conducted by CPSC during a one-year period. Cases identified as part of special surveys will not constitute more than 5 percent of the total product-related cases to be reported by the Contractor during the performance period. Instructions pertaining to each special survey will be sent to the Contractor approximately two (2) weeks in advance of each survey. Patient identification will not be required except for occasional cases selected for a follow-up inquiry as described in 6.A.4. CPSC will reimburse the Contractor for these special survey reports at the same price as regular Surveillance Reports.

6. ALL TRAUMA REPORTING

In order to provide information on ALL trauma injury cases seen/treated in the emergency department, the definition of in-scope cases is hereby broadened (see 6.A.2.). The Contractor shall report ALL trauma injury cases seen/treated in the emergency department, as described in the attached sheet entitled "Expanded National Electronic Injury Surveillance System (NEISS) Reporting Rule".

B. NEISS SUPPLEMENTAL/SPECIAL STUDY REPORTS

1. The Commission may enter into formalized agreements with other Federal agencies to collect and assemble information through the NEISS to carry out special inquiries on injuries that would be of particular interest to the other agency. In these instances, the definition of in-scope cases may be broadened and the Contractor shall code and transmit additional cases in accordance with additional coding instructions to be issued by the CPSC Contracting Officer Representative (COR).
2. Such additional cases shall contain the same data elements as required in Section 6.A., NEISS Surveillance Reports, but these reports may also require some additional data elements, e.g., symptoms, treatment, time of incident. The reporting of these additional data elements in a "2nd screen" will require an estimated 75% more time per case than NEISS Surveillance Reports.

C. ORIENTATION AND TRAINING

- a. CPSC will provide NEISS orientation and training to all involved Contractor personnel. CPSC will also provide technical instructions on case selection, coding, and reporting. The Contractor shall make available his/her personnel for basic training not to exceed 32 hours immediately after contract award and as personnel are replaced. This training will be provided at a site within the geographical area covered by the Contractor.
- b. The personnel responsible for coding and transmitting may be required to attend brief training seminars at a location other than their geographical area. Since these training seminars are designed to enhance the NEISS coder's reporting knowledge and skill, exemption from attendance will only be permitted for health or other significant reasons. Prior to such training seminars, the Contractor shall be notified in advance with specific details. CPSC will reimburse the Contractor for actual travel costs not to exceed those specified in the Federal Travel Regulations.

D. PERIODIC MEETINGS

The Contractor staff assigned to this contract shall arrange periodic meetings, at least quarterly, with hospital emergency department and other staff involved with the injury surveillance activity in order to promote effective injury reporting and awareness of product safety issues. Such meetings shall be planned and implemented in coordination with the hospital administration.

E. CONTRACTOR PERSONNEL

1. The Contractor shall be responsible for the continued and timely reporting of data as described in this document. Toward this end, the Contractor shall provide for back-up personnel to assume the function of NEISS reporting in the absence of the Contractor's regular designated personnel.
2. By performance of this agreement, the Contractor agrees that the Hospital has the right to approve or disapprove of the CPSC representative.

F. PERSONAL COMPUTER INSTALLATION

CPSC will provide the Contractor with an encrypted personal computer. If necessary, the Contractor shall arrange with local companies for the services or equipment specified by the CPSC Project Officer for connecting the computer to the internet. CPSC will reimburse the Contractor for the cost of installing or maintaining such services, if not already installed.

G. MONTHLY RECURRING COMMUNICATION CHARGES

The encrypted personal computer can be connected to existing internet service. If the Contractor and CPSC jointly agree that it is necessary to install a new service for this purpose, then CPSC will reimburse the Contractor for the actual monthly recurring charges.

H. SUPPLIES AND REPAIRS TO PERSONAL COMPUTER

- a. The Contractor shall contact CPSC for all necessary supplies and repairs to the personal computer. The Contractor will not be reimbursed for supplies and repairs acquired at the Contractor's own expense from private concerns unless the Contracting Officer approves such purchases or services in advance.
- b. If necessary, the Contractor may be required to package and ship the computer to a designated place for repairs. In such an event, CPSC will provide a replacement computer and pay for packaging materials and shipping costs at no expense to the Contractor.

7. PERIOD OF PERFORMANCE

Base plus options years as noted on form 1449

8. PERFORMANCE ASSESSMENTS, PERFORMANCE STANDARDS AND INCENTIVES

A. MINIMUM STANDARDS - The Contractor shall meet the following standards:

1. Average lag between treatment and collection date shall not exceed five (5) days. Adjustment may be made for record access delay if confirmed and acceptable to CPSC.
2. Percent of cases with error messages shall not exceed 5%.
3. All treatment dates shall be accounted for with adequate number of cases reported or message that no in-scope cases were found.

B. OUTSTANDING STANDARDS - Outstanding performance is defined as meeting all of the following standards (for cases reported) for each month:

1. Average lag between treatment and collection date does not exceed three (3) days. (Adjustment may be made for record access delay if confirmed and acceptable to CPSC.)
2. Percent of cases with error messages shall not exceed 3%.
3. All treatment dates were accounted for with adequate number of cases reported or message that no in-scope cases were found.

- C. **INCENTIVES** - The Contractor will receive a bonus of 10 percent of the month's bill (for cases reported) for each month the Contractor has met all requirements for Outstanding Performance.
- D. Evaluation of performance will be made by CPSC within one month after the end of each quarter.

9. ACCEPTANCE OF DATA

- A. All data submitted to CPSC under this contract will be reviewed and edited by Commission personnel in the Division of Hazard and Injury Data Systems, Directorate for Epidemiology.
- B. Acceptance or rejection of data submitted shall be based on conformance with the NEISS Coding Manual or other coding instructions issued by CPSC, and the Performance Work Statement.
- C. Notice of approval/rejection will be transmitted by Commission personnel in the Division of Hazard and Injury Data Systems, Directorate for Epidemiology via the encrypted personal computer in the form of "NEISS Error Messages" to the Contractor. The Contractor shall correct and resubmit any rejected data to CPSC within three (3) working days after notice of rejection at no additional cost to the Government.

LC 5 CONTRACTING OFFICER'S REPRESENTATIVE (COR) DESIGNATION

- a. The COR has been identified on page one of this contract.
- b. The CPSC COR is responsible for performing specific technical and administrative functions, including:
 - (1) performing technical evaluation as required;
 - (2) assisting the Contractor in the resolution of technical problems encountered during performance; monitoring the Contractor's technical progress, including surveillance and assessment of performance, and notifying the Contracting Officer within one week when deliverables (including reports) are not received on schedule in accordance with the prescribed delivery schedule; and
 - (3) inspection and acceptance of all items required by the contract.
- c. The COR, who may be personally liable for unauthorized acts, is not authorized to and shall not:
 - (1) make changes in scope of work, contract schedules, and/or specifications, or to make changes that affect price, quality, quantity or delivery,
 - (2) direct or negotiate any change in the terms, conditions, or amounts cited in the contract; and
 - (3) make commitments or changes that affect price, or take any action that commits the Government or could lead to a claim against the Government.
- d. This delegation is not redelegable and remains in effect during the period of performance of the contract.
- e. A clear distinction is made between Government and Contractor personnel. No employer-employee relationship will occur between government employees and contractor employees. Contractor employees must report directly to their company (employer) and shall not report to Government personnel.

LC35 NOT TO EXCEED

This contract is issued on a "NOT TO EXCEED" basis because it is not possible to determine the exact quantities/services that will be required during performance of the contract. The total expended amount under the contract shall not exceed the grand total of the not to exceed amount indicated by the applicable line item, nor is the Contractor entitled to perform work and expect reimbursement beyond that amount, without approval of the Contracting Officer. The COR must provide the Contracting Officer with a revised quantity, "Not to Exceed" total, and funding to process a modification to the contract. The Contractor is not authorized to invoice and/or receive payment for additional work above the specified contract total without receipt of a formal, written modification to the contract.

13. SPECIAL CLAUSES

PRIVACY ACT

This contract does not require the Contractor to maintain a system of records as defined in the Privacy Act of 1974. More specifically, the Contractor is not required to, and agrees not to, maintain any system of records for or on behalf of the U.S. Consumer Product Safety Commission, in which any records or any personal data are indexed by, or retrieved by, a person's name, social security number, or any other unique identification.

SEAT BELT USE

In an effort to reduce deaths and injuries resulting from motor vehicle accidents, President Clinton issued Executive Order 13043 requiring the use of seat belts by federal employees while on official government business. The Executive Order also encourages federal contractors, subcontractors, and grantees to adopt and enforce on-the-job seat belt policies and programs for their employees when operating government-owned or leased vehicles, company-owned, rented, or personally-owned vehicles.

52.217-08 OPTION TO EXTEND SERVICES (Nov 1999)

The Government may require continued performance of any services at the rates specified in the contract. The option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed 6 months. 52.217-09 OPTION TO EXTEND THE TERM OF THE CONTRACT (Mar 2000)

- (a) The Government may extend the term of this contract by written notice to the Contractor within fifteen (15) days; provided that the Government gives the Contractor a preliminary written notice of its intent to extend at least thirty (30) days before the contract expires. The preliminary notice does not commit the Government to an extension.
- (b) If the Government exercises this option, the extended contract shall be considered to include this option clause.

- (c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed 5 years.

52.232-18 AVAILABILITY OF FUNDS (Apr 1984)

Funds are not presently available for the period August 1, 2014 through July 31, 2015, plus option years 2016 through 2018. The Government's obligation under this contract is contingent upon the availability of appropriated funds from which payment for contract purposes can be made. No legal liability on the part of the Government for any payment may arise until funds are made available to the Contracting Officer for this contract and until the Contractor receives notice of such availability, to be confirmed in writing by the Contracting Officer.

52.204-7 System for Award Management (SAM) (Jul, 2013)

(a) Definitions. As used in this provision—

“Data Universal Numbering System (DUNS) number” means the 9-digit number assigned by Dun and Bradstreet, Inc. (D&B) to identify unique business entities.

“Data Universal Numbering System +4 (DUNS+4) number” means the DUNS number assigned by D&B plus a 4-character suffix that may be assigned by a business concern. (D&B has no affiliation with this 4-character suffix.) This 4-character suffix may be assigned at the discretion of the business concern to establish additional System for Award Management records for identifying alternative Electronic Funds Transfer (EFT) accounts (see the FAR at Subpart 32.11) for the same concern.

“Registered in the System for Award Management (SAM) database” means that—

(1) The offeror has entered all mandatory information, including the DUNS number or the DUNS+4 number, the Contractor and Government Entity (CAGE) code, as well as data required by the Federal Funding Accountability and Transparency Act of 2006 (see Subpart 4.14) into the SAM database;

(2) The offeror has completed the Core, Assertions, and Representations and Certifications, and Points of Contact sections of the registration in the SAM database;

(3) The Government has validated all mandatory data fields, to include validation of the Taxpayer Identification Number (TIN) with the Internal Revenue Service (IRS). The offeror will be required to provide consent for TIN validation to the Government as a part of the SAM registration process; and

(4) The Government has marked the record “Active”.

(b)(1) By submission of an offer, the offeror acknowledges the requirement that a prospective awardee shall be registered in the SAM database prior to award, during performance, and through final payment of any contract, basic agreement, basic ordering agreement, or blanket purchasing agreement resulting from this solicitation.

(2) The offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation “DUNS” or “DUNS +4” followed by the DUNS or DUNS +4 number that identifies the offeror's name and address exactly as stated in the offer. The DUNS number will be used by the Contracting Officer to verify that the offeror is registered in the SAM database.

(c) If the offeror does not have a DUNS number, it should contact Dun and Bradstreet directly to obtain one.

(1) An offeror may obtain a DUNS number—

(i) Via the Internet at <http://fedgov.dnb.com/webform> or if the offeror does not have internet access, it may call Dun and Bradstreet at 1-866-705-5711 if located within the United States; or

(ii) If located outside the United States, by contacting the local Dun and Bradstreet office. The offeror should indicate that it is an offeror for a U.S. Government contract when contacting the local Dun and Bradstreet office.

(2) The offeror should be prepared to provide the following information:

(i) Company legal business.

(ii) Tradestyle, doing business, or other name by which your entity is commonly recognized.

(iii) Company Physical Street Address, City, State, and ZIP Code.

(iv) Company Mailing Address, City, State and ZIP Code (if separate from physical).

(v) Company Telephone Number.

(vi) Date the company was started.

(vii) Number of employees at your location.

(viii) Chief executive officer/key manager.

(ix) Line of business (industry).

(x) Company Headquarters name and address (reporting relationship within your entity).

(d) If the Offeror does not become registered in the SAM database in the time prescribed by the Contracting Officer, the Contracting Officer will proceed to award to the next otherwise successful registered Offeror.

(e) Processing time, which normally takes 48 hours, should be taken into consideration when registering. Offerors who are not registered should consider applying for registration immediately upon receipt of this solicitation.

(f) Offerors may obtain information on registration at <https://www.acquisition.gov>.

The Government reserves the right to inspect or test any supplies or services that have been tendered for acceptance. The Government may require repair or replacement of nonconforming supplies or reperformance of nonconforming services at no increase in contract price. If repair/replacement or reperformance will not correct the defects or is not possible, the Government may seek an equitable price reduction or adequate consideration for acceptance of nonconforming supplies or services. The Government must exercise its post-acceptance rights—

(1) Within a reasonable time after the defect was discovered or should have been discovered; and

(2) Before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

(e) *Definitions.* The clause at FAR 52.202-1, Definitions, is incorporated herein by reference.

(h) *Patent indemnity.* The Contractor shall indemnify the Government and its officers, employees and agents against liability, including costs, for actual or alleged direct or contributory infringement of, or inducement to infringe, any United States or foreign patent, trademark or copyright, arising out of the performance of this contract, provided the Contractor is reasonably notified of such claims and proceedings.

(i) All amounts that become payable by the Contractor to the Government under this contract shall bear simple interest from the date due until paid unless paid within 30 days of becoming due. The interest rate shall be the interest rate established by the Secretary of the Treasury as provided in Section 611 of the Contract Disputes Act of 1978 (Public Law 95-563), which is applicable to the period in which the amount becomes due, as provided in (i)(6)(v) of this clause, and then at the rate applicable for each six-month period as fixed by the Secretary until the amount is paid.

(ii) The Government may issue a demand for payment to the Contractor upon finding a debt is due under the contract.

(A) The Contracting Officer and the Contractor are unable to reach agreement on the existence or amount of a debt within 30 days;

(C) The Contractor requests a deferment of collection on a debt previously demanded by the Contracting Officer (see 32.607-2).

(iv) If a demand for payment was previously issued for the debt, the demand for payment included in the final decision shall identify the same due date as the original demand for payment.

(v) Amounts shall be due at the earliest of the following dates:

(A) The date fixed under this contract.

(B) The date of the first written demand for payment, including any demand for payment resulting from a default termination.

(vi) The interest charge shall be computed for the actual number of calendar days involved beginning on the due date and ending on—

(A) The date on which the designated office receives payment from the Contractor;

(B) The date of issuance of a Government check to the Contractor from which an amount otherwise payable has been withheld as a credit against the contract debt; or

The Contractor shall not be required to comply with the cost accounting standards or contract cost principles for this purpose. This paragraph does not give the Government any right to audit the Contractor's records. (m) *Termination for cause.* The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government, upon request, with adequate assurances of future performance. In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If it is determined that the Government improperly terminated this contract for default, such termination shall be deemed a termination for convenience.

(n) *Title.* Unless specified elsewhere in this contract, title to items furnished under this contract shall pass to the Government upon acceptance, regardless of when or where the Government takes physical possession.

(o) *Warranty.* The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

(1) Unless exempted by an addendum to this contract, the Contractor is responsible during performance and through final payment of any contract for the accuracy and completeness of the data within the SAM database, and for any liability resulting from the Government's reliance on inaccurate or incomplete data. To remain registered in the SAM database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the SAM database to ensure it is current, accurate and complete. Updating information in the SAM does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(2)(i) If a Contractor has legally changed its business name, "doing business as" name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in FAR Subpart 42.12, the Contractor shall provide the responsible Contracting Officer a minimum of one business day's written notification of its intention to (A) change the name in the SAM database; (B) comply with the requirements of Subpart 42.12; and (C) agree in writing to the timeline and procedures specified by the responsible Contracting Officer. (ii) If the Contractor fails to comply with the requirements of paragraph (t)(2)(i) of this clause, or fails to perform the agreement at paragraph (t)(2)(i)(C) of this clause, and, in the absence of a properly executed novation or change-of-name agreement, the SAM information that shows the Contractor to be other than the Contractor indicated in the contract will be considered to be incorrect information within the meaning of the "Suspension of Payment" paragraph of the electronic funds transfer (EFT) clause of this contract.

(3) The Contractor shall not change the name or address for EFT payments or manual payments, as appropriate, in the SAM record to reflect an assignee for the purpose of assignment of claims (see Subpart 32.8, Assignment of Claims). Assignees shall be separately registered in the SAM database. Information provided to the Contractor's SAM record that indicates payments, including those made by EFT, to an ultimate recipient other than that Contractor will be considered to be incorrect information within the meaning of the "Suspension of payment" paragraph of the EFT clause of this contract.

(i) Any such clause is unenforceable against the Government.

(ii) Neither the Government nor any Government authorized end user shall be deemed to have agreed to such clause by virtue of it appearing in the EULA, TOS, or similar legal instrument or agreement. If the EULA, TOS, or similar legal instrument or agreement is invoked through an "I agree" click box or other comparable mechanism (e.g., "click-wrap" or "browse-wrap" agreements), execution does not bind the Government or any Government authorized end user to such clause.

(iii) Any such clause is deemed to be stricken from the EULA, TOS, or similar legal instrument or agreement.
