List of Laboratories Accepted as Accredited to 16 C.F.R. 1303

Section 14(a)(8)(E) of the Consumer Product Safety Act, as amended, requires the Commission to "maintain on its Internet website an up-to-date list of entities that have been accredited to assess conformity with children’s product safety rules." The laboratories listed below have been accredited to test children’s products to the ban on lead-containing paint found in 16 C.F.R. 1303. A manufacturer of a children’s product that must comply with the lead paint ban must support its certification of compliance with test results from one of these laboratories. The list below will be updated on a regular basis.
