

SAFETY CHECKLIST

When you drop off your child at school, use this checklist to make sure these hidden hazards aren't waiting to cause injury or death:

Playground

- I checked with my school's officials to make sure that equipment has been inspected and maintained.
- There are at least nine inches of shock absorbing surface material around my school's playground equipment.

Bicycle Helmets

- My child wears a helmet every time he/she bikes or rides a scooter to and from school.
- My child's helmet fits snugly, level on top of the head, with a buckled chin strap.

Drawstrings

- None of my child's outerwear clothing has drawstrings at the hood or neck area.

Movable Soccer Goals

- All soccer goals are securely anchored when in use.

Recalled Products

- I have checked CPSC's Web site to make sure all back to school purchases and previously owned items have not been recalled.
- I have signed up at cpsc.gov to have e-mail alerts of the CPSC recall announcements that interest me sent directly to my e-mail inbox.
