Subject: analysis of time since last meal data from latest NHANES sample
Attachments: Urinary DEHP Metabolites and Fasting Time in NHANES.pdf; Preau et al 2010 - variability.pdf

Mike –

As a follow-up to the discussion at the July CHAP meeting and our subsequent email exchange, we asked Lesa Aylward and Sean Hays of Summit Toxicology to do an analysis of the time to last meal for the DEHP metabolites. The results are attached. Sean Hays shared this data with Holger Koch at a conference that they both attended in Europe this week.

I have also attached a new publication from Antonia Calafat on the variability in DEHP metabolites that will appear in EHP.
