By a show of hands, participants voted to accept draft sections as written or as modified by suggestions of participants. CPSC staff abstained from any voting in accordance with CPSC regulations. The chairman agreed to coordinate establishing task groups that would consider, in depth, certain issues, including the specific methods that would be used to measure lead in products. Additional information, including the meeting minutes, may be requested from Len Morrissey, ASTM International (telephone: 610-832-9719).
