SUMMARY OF MEETING: Mr. Krulwich requested the meeting to present arguments why over-the-counter lidocaine-containing products should not be included in the child-resistant packaging rule for lidocaine- and dibucaine-containing products that will be considered shortly by the Commission. Mr. Rubel opened the meeting by stating that CPSC staff intended to hear the arguments presented, but would not respond to them at this time. Thus, any lack of response should not be interpreted as either agreeing or disagreeing with the points presented.

Mr. Krulwich presented the points described in a letter dated September 8, 1994, addressed to the General Counsel, which he hand-delivered at the end of the meeting.
