

Manufacturer: Berry Plastics Corporation
Model: ZH50SQ
ASTM Type: IL

Description:

The package consists of a square plastic open-head pail and a square plastic pail lid with a one-piece plastic continuously-threaded closure (white pail, red pail lid, and blue circular closure in Figure 1).

Figure 1

The open-head pail and pail lid fit together. Access to the pail is through the one-piece blue plastic continuously-threaded closure (Figure 2). The closure has two tabs 180° apart near its edges (Figure 2 and 3) and a raised circular area in the center of the blue circular closure (Figure 2). The package is opened by turning the closure counterclockwise until it stops, then lifting the closure/lid and continuing to turn it counterclockwise until it comes off.

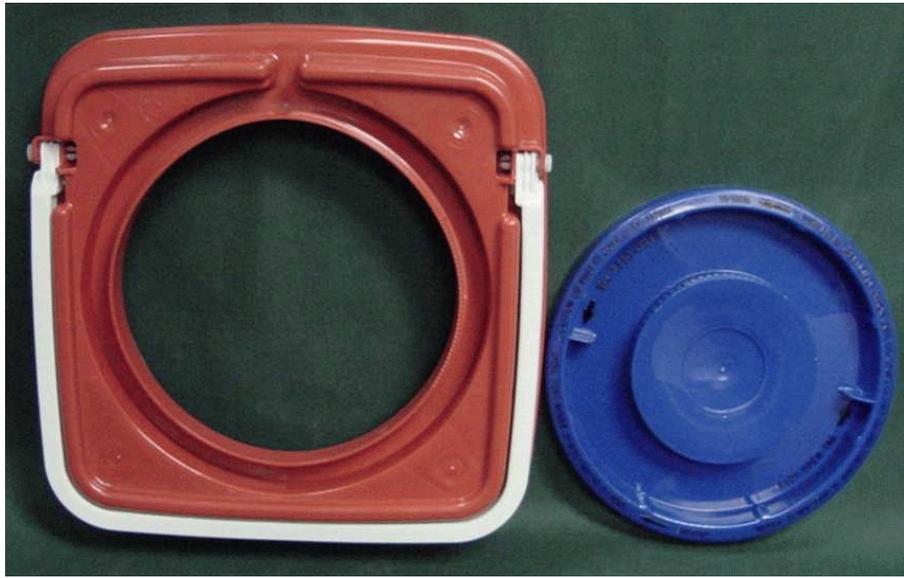

Figure 2

Figure 3

The manufacturer's instructions on the blue circular closure are (Figure 3). (Note the blue circular closure is referred to in the manufacturer's instructions as the lid.):

TO OPEN: (arrow pointing counterclockwise)

1. TURN LID IN DIRECTION OF ARROW UNTIL LID STOPS.
2. LIFT LID AND CONTINUE IN DIRECTION OF ARROW.

TO CLOSE: (arrow pointing clockwise)

1. TURN LID IN DIRECTION OF ARROW UNTIL TIGHT.
2. CAUTION: LID MUST BE COMPLETELY CLOSED.

(There are two tabs 180° apart that are each labeled with a counterclockwise arrow and the words "EASY-OPEN TAB".)
