

Manufacturer: Howell Packaging  
Model: howell•CR•III®  
ASTM Type: VIIIJ

Description:

This is a semi-rigid blister non-reclosable package (Figures 1 and 2). The package consists of a paperboard blistercard with plastic film blister cavities protruding through holes in the front of the card (see arrow Figure 2). Each blister has a foil backing (Figure 3). The package has an attached cover to permit additional instructions (left side of Figure 2).

Figure 1

Figure 2

Figure 3

The package is opened by removing a tear-away tab on the back of the blister card (Figure 4A). Once the tab is removed, a perforated circular area is exposed (Figure 4B). The tablet is then pushed through both the perforated circular area and the foil backing out the back of the card (Figure 4C).
