

NEISS Data Highlights - 2016

CPSC's National Electronic Injury Surveillance System (NEISS) collects current injury data associated with consumer products from U.S. hospital emergency departments across the country. Consisting of a national probability sample of hospitals of differing sizes and locations, NEISS provides national estimates of the number and types of consumer product-related injuries.

The 2016 NEISS estimates have been produced from a sample of 96 hospitals, including children's hospitals. Information from NEISS is available to the public through CPSC's National Injury Information Clearinghouse (phone: 301-504-7921) and online at www.cpsc.gov/en/Research--Statistics/NEISS-Injury-Data/. For information about NEISS, contact: Thomas J. Schroeder (phone 301-504-7431 / e-mail: tschroeder@cpsc.gov).

Product Groupings	Estimated Number of Injuries*	CV*	Number of Injuries*	Estimated Number of Injuries and <i>Estimated Rate of Product-Related Injuries per 100,000 Population in the United States and Territories (listed in italic)</i> that Were Treated in Hospital Emergency Departments*

* **Estimated Number of Injuries:** Because NEISS is a probability sample, each injury case has a statistical weight. These are national estimates of the number of persons treated in U.S. hospital emergency departments with consumer product-related injuries and are derived by summing the statistical weights for the appropriate injury cases. The data system allows for reporting of up to two products for each person's injury, so a person's injury may be counted in two product groups.

* **CV (Coefficient of Variation):** The CV, the standard error of the estimate divided by the estimate, is a measure of sampling variability (errors that occur by chance because observations are made only on a population sample).

* **Number of Injuries:** The actual number of injury cases collected from the hospitals sampled. Since injury cases have different statistical weights, these "raw" numbers should not be used for comparative purposes.

* **Estimated Rate:** Estimated rates are calculated using the Census Bureau's July 1, 2015 U.S. resident population estimates.
