Battery  
operated  
upright vacuum  
cleaner  
introduced  
September  
2004.

## Swiffer Sweep+Vac Product Information Sheet

### Disassembly Instructions

**Step 1:**  
Locate small green  
button on the pole,  
about 12 inches  
below the handle.

**Step 2:**  
Fully press and  
hold in the small  
green button.

**Step 3:**  
Pull the top handle  
section straight out.

The unit is now fully  
disassembled, thereby  
eliminating any possibility  
of the unit overheating.  
The device is now ready to  
be returned for a refund.
