ITEM:

Draft Notice of Proposed Rulemaking to Amend the Flammability Standard for Clothing Textiles
(Briefing package dated January 10, 2007, OS No. 4202)

DECISION:

The Commission voted unanimously (2-0) to approve the Notice of Proposed Rulemaking ("NPR") for publication in the *Federal Register* with certain specific changes. The NPR revises the Standards for the Flammability of Clothing Textiles, 16 C.F.R. Part 1610, in accordance with the Commission's previous direction to the staff. The NPR amends the standard to update the refurbishing methods, allow for modern technology and reorganize and clarify large portions of the standard. The NPR amendments do not redefine the standard's acceptance criteria and are not expected to have any significant economic impact on small businesses or have any potential to produce significant environmental impacts.

For the Commission:
