SUMMARY OF CONVERSATION:

On 4 January 2000, I returned the telephone call that Ms. Rost made on Monday 3 January 2000, to me. She said that she got my name from Preston and was calling about Dave Kaplan. She knew that Dave Kaplan had worked for CPSC for 12 years up to 1987.

She wanted to know if Mr. Kaplan worked for compliance or Engineering. I said that he worked for engineering, he did not inspect amusement rides but did accident investigations. At that time CPSC could investigate fixed and mobile amusement rides. Presently, CPSC is limited to mobile rides.

I gave her the number of the Office of Humane Resources Management, Beverly St. Clair, and said that Mr. Kaplan's personnel record and position description may be obtainable. I also said that it might be possible to obtain copies of some reports if they are releasable.

She thanked me and the telephone call ended.
