SUBJECT: Barrier Meeting-Technical Bulletin 117 Revision

DATE OF MEETING: August 27, 2002

DATE OF LOG ENTRY: July 23, 2003

SOURCE OF LOG ENTRY: Allyson Tenney, Engineering Sciences 

LOCATION: California Bureau of Home Furnishings
North Highlands, California

CPSC ATTENDEES: Allyson Tenney, ES; Edward Krawiec, LS

NON-CPSC ATTENDEES: See attached attendees list

SUMMARY OF MEETING:

An ATMI/AfIMA/CBHF technical meeting to discuss barriers and Technical Bulletin 117 (TB-117) was held at the California Bureau of Home Furnishings (CBHF). The purpose of the meeting was to discuss an appropriate test method for barriers and classification of barrier technologies. John McCormack of CBHF provided an update on all pending and completed technical work relating to TB 117. After the update, related research reports were presented by representatives from API, Cotton, Inc., Quaker, DuPont and Wellman. It was agreed that a task group would be formed to propose a barrier test method. Interested parties are to designate a representative by September 2002 and a meeting will follow.
