

**ASTM Meeting  
F15.38 Subcommittee on Window Falls Prevention  
Bethesda, MD  
January 18, 1996**

**Log of Meeting**

**Date of Log Entry:** January 23, 1996  
**Source of Log Entry:** Susan Kyle, Ph.D., Project Manager *SK*  
Window Falls  
CPSC  
**Attendees:** See attached sheet

**Summary of Meeting**

The meeting was chaired by Mr. John Blair from DuPont representing the ASTM F15 Committee. After self-introductions by attendees, Mr. Blair stated that not enough response had been received to the ballot of the "Provisional Safety Specification for Fall Prevention Guards for Non-Egress Windows". The bulk of the meeting consisted of considering negative ballots and comments concerning the provisions of the standard for non-egress window guards. Issues discussed included what information should be included in the introduction, what the maximum allowable opening size should be, and what test methods and criterion values should be. Revisions were made to all portions of the draft standard except the test methods section. A working group was formed to draft revisions to the test methods. A second working group was formed to begin drafting a standard for window guards to be used on emergency egress windows. A date for a future meeting will be set after the working groups have had a chance to gather information and prepare drafts.
