

DEFEAT THE VILLAINS OF PLAYGROUND SAFETY!

THE STRANGLER

Never attach ropes, jump ropes, pet leashes or strings to playground equipment; children can strangle on these as well as loose strings on clothing.

HARDHEAD

Make sure there is shock-absorbing material under the play set as falls are the biggest risk to children on the playground.

THE FIREBALL

Don't let kids play on slides/surfaces that are hot. If it feels hot to your hand, it may be too hot for a child's bare skin.

DISTRACTATRON

Always supervise children on playgrounds to make sure they are safe.
