Summary of Meeting:

Ms. Rachael Shagott officially opened the meeting and introduced herself as the new subcommittee chair for infant and cradle swings. After attendees completed introductions, the group approved the meeting agenda and prior minutes. The chair noted that there were no ballot results nor Task Groups reports to discuss.

On new business, CPSC staff notified the attendees that the Commission had voted to adopt the updated infant swings standard, ASTM 2088-25. The Direct Final Rule updating 16 CFR part 1223 will take effect on July 25, 2026.

The chair then proceeded to address administrative matters, focusing on the management of subcommittee membership and related organizational issues.

Next Steps:

The chair informed attendees that the subcommittee is not expected to convene during the upcoming ASTM juvenile products subcommittee meeting in Fall 2026, unless significant new developments occur prior to that time.
