SUMMARY OF MEETING:

The ASTM task group on changing tables warnings discussed proposed revisions to the warning section of the voluntary standard, including the following topics:

- Defining add-on changing units intended for play yards as changing table accessories for play yards.
- Harmonizing warning formatting with ad-hoc task group recommendations.
- The number and type of warning label examples to include in the standard.
- Requirements for changing table accessories that are already included in the non-full-size crib and play yard standard.
- How best to number the section and under which section number (e.g. 9.4 vs 9.4.3 vs 9.4.7 vs 9.5) to include the wording requirements for the warning statements.

The task group change agreed to revise the current draft ballot for discussion with the full subcommittee during the meeting in early June.
