### Summary of Meeting:

The Subcommittee meeting was led by chair Mr. Benjamin Shirley. The meeting began with a report from ASTM officer Ms. Jamie Huffnagle. Then the agenda and minutes from the previous Subcommittee meeting were approved. CPSC staff's involvement in this subcommittee is focused on playground fencing at this time, specifically as it relates to F2049-*Standard Safety Performance Specification for Fences/Barriers for Public, Commercial, and Multi-Family Residential Use Outdoor Play Areas*. The chair stated that there are no ballots open or currently under review. The chair plans to put out for ballot proposed language in WK85956 that would revert F2049 to a guide. CPSC staff actively monitored the discussion, but did not voice any questions or comments.

### Next Steps:

CPSC staff will review the ballot and its possible implications for fencing safety surrounding public playgrounds when the ballot becomes available.
