<b>OBSERVERS</b>	<b>AFFILIATION</b>
Sean Oberle	Product Safety Letter

### MEETING NOTES:

---

The meeting began with introductions from CPSC staff. Mr. Fogelson highlighted the role of America's 53 poison centers and their data system, NDPS, which captures thousands of cases a day. Ms. Brown then provided a more detailed overview of the NDPS and what data it captures. Discussions covered data structure, licensing, and potential applications. The Acting Chairman proposed a follow-up meeting to explore data integration further.
