Summary of Meeting:

This task group is focused on developing a standard for wall beds. The task group continued discussion from the previous meeting on progress the task group has made and next steps in the development of the standard.

The primary focus of the meeting was to discuss potential performance requirements to be incorporated in the new standard. These requirements include:

- General Requirements
 - Assembly and Installation for Testing
 - Assembly, Installation, and Disassembly Instructions
 - Mounting Hardware Included
 - Attachment to the Building/Wall
- Safety Requirements
 - Loosening of Structure and Parts
 - Locking Mechanisms
- Construction
 - Hazardous Sharp Edges or Points
 - Shearing and Pinching
- Unintended Opening/Closing

CPSC staff provided input, including on the types of mounting hardware to be included with the wall bed, and provided an overview of trends observed in wall bed instructions staff have evaluated. The performance requirements will continue to be developed at the next meeting.

Next Steps:

CPSC staff plans to attend the next meeting of the task group, which is scheduled for January 8, 2026.
