

**MEMORANDUM OF UNDERSTANDING
FOR THE EXCHANGE OF AUTOMATED COMMERCIAL ENVIRONMENT
DATA
BETWEEN
U.S. CUSTOMS AND BORDER PROTECTION
ON BEHALF OF
THE DEPARTMENT OF HOMELAND SECURITY
AND
THE U.S. CONSUMER PRODUCT SAFETY COMMISSION**

1. PARTIES

The parties to this Memorandum of Understanding (MOU) are U.S. Customs and Border Protection (CBP), U.S. Department of Homeland Security (DHS), and the U. S. Consumer Product Safety Commission (CPSC) (collectively referred to as “the Parties”).

2. AUTHORITY

This Agreement is authorized under the provisions of the Security and Accountability For Every Port Act of 2006 (SAFE Port Act), Public Law 109-347, the Homeland Security Act of 2002, Pub. L. 107-296, Executive Order 13439, July 18, 2007 and the Consumer Product Safety Improvement Act of 2008 (CPSIA), Public Law 110-314, 122 Stat. 3016 (August 14, 2008), the Consumer Product Safety Act (CPSA), Public Law 92-573, codified at 15 U.S.C. §§ 2051-2089, and other statutes set forth in Appendix A.

CPSC requires the data collected under the authority of the noted statutes to fulfill its statutory and regulatory duties and responsibilities. The CPSC is mandated to “protect the public against unreasonable risks of injury associated with consumer products,” (see 15 U.S.C. § 2051(b)(1)), and to refuse the admission into the United States and interstate commerce of illegal, noncompliant, or hazardous products under the statutes administered by the CPSC.

3. PURPOSE

The objective of this MOU is to establish procedures and guidelines between CBP and CPSC to accommodate, facilitate and expedite the exchange of applicable data between the Parties via CBP’s Automated Commercial Environment (ACE), including the International Trade Data System (ITDS) interface or successor systems. A further objective of this MOU is to consolidate all existing commercial trade and transportation data exchange MOUs, and similar information sharing agreements, between CBP and CPSC, so that CBP can furnish, exchange and transfer information from the appropriate electronic

systems to CPSC. The consolidation of the transfer of ACE data directly to CPSC and CBP, will conserve resources, decrease duplication, curtail expenses, eliminate inconsistencies and ensure compliance with the SAFE Port Act.

Consistent with the intent to have this ACE MOU become the principal authority for the exchange of trade and transportation data between the Parties, this MOU authorizes the exchange of all trade and transportation data between the parties. Trade and transportation data maintained in other systems may be exchanged pursuant to the authority of this agreement, and as that data becomes maintained by ACE or a successor system, will be exchanged pursuant to the authority of this agreement. Until such time as other commercial information systems are retired or decommissioned, MOUs providing for the exchange of information from those systems will remain in effect for data exclusively maintained in those systems. Additionally, this agreement has no effect upon the following agreements and the provisions set forth in the below paragraphs (1) and (2):

1) MOU Among CBP, CPSC, the Food Safety Inspection Service (FSIS), the Animal Plant Health Inspection Service (APHIS), United States Immigration and Customs Enforcement (ICE) through the Commercial Targeting and Analysis Center (CTAC) signed on October 21, 2010;

2) MOU between CBP and CPSC Regarding Operational Matters and Data Exchange Through the Automated Commercial System (ACS), effective October 3, 2002, is superseded with respect to all data sharing provisions. Until such time as a separate Operational MOU for ACE is executed, the following paragraphs of the ACS MOU remain in effect:

Section I. Customs Agrees: paragraphs 4, 5, 7 and 9
Section II. CPSC Agrees: paragraphs 4, 6, 7 and 8
Section IV. Mutually Agreed: paragraph 2

To accomplish the objectives of this MOU, the Parties will refer to the ACE Standard Data Set (SDS) to define the data elements containing information subject to this exchange. A detailed list of those identified data elements is listed in Appendix A.

4. RESPONSIBILITIES

4.1 CBP Agrees:

4.1.1 To provide CPSC with access to information that fulfills the stated purpose of this MOU; in particular, ACE data that assists CPSC in the execution of its statutory and

- regulatory duties, including any trade, manufacturing, certification, transportation, supply chain, testing or statistical data as required by the authorities set forth in Appendix A. CPSC will have both system-to-system access and ACE portal access.
- 4.1.2 To develop a mechanism for the electronic exchange of information with CPSC on the importation of consumer products, as defined in §3(a)(5) of the CPSA, and other products or substances regulated by CPSC which are listed in Appendix B. If HTSUS numbers are changed, this MOU would continue to allow access to information regarding the products under the new, equivalent HTSUS numbers.
 - 4.1.3 To coordinate with CPSC regarding requests made under the Freedom of Information Act (5 U.S.C. §552) and Privacy Act (5 U.S.C. §552a), for ACE data which may be jointly owned between CBP and CPSC. If the information sought is owned exclusively by CPSC, CBP will refer the request to CPSC for processing.
 - 4.1.4 To not disclose to third parties any information received from CPSC, for which CPSC is the owner, unless CPSC approves, in advance, the disclosure in writing.
 - 4.1.5 To acknowledge its responsibility, pursuant to the Paperwork Reduction Act, for any unlawful release of any information provided by CPSC.
 - 4.1.6 To the extent possible, notify CPSC of discrepancies identified in applicable ACE data of which CBP becomes aware.
 - 4.1.7 To engage in timely exchanges of security-related information with CPSC related to critical infrastructure vulnerabilities, threat intelligence, and commercial security activities, such as with the Commercial Targeting and Analysis Center (CTAC) and/or the Customs and Trade Partnership Against Terrorism (C-TPAT) and related initiatives.
 - 4.1.8 To keep confidential any information provided to CBP by CPSC under section 29(f) of the CPSA, 15 U.S.C. § 2078(f), according to those provisions.
 - 4.1.9 To allow CPSC to periodically audit security measures utilized by CBP for accessing CPSC provided data.
 - 4.1.10 In accordance with contracting and procurement regulations, to provide through an Interagency Agreement for the transfer of funds contemplated by such an agreement. (Appendix D is reserved for attaching applicable Interagency Agreement(s).)

4.2 CPSC Agrees:

- 4.2.1 To use CBP-provided ACE data to ensure compliance with CPSC laws and regulations, as required by the authorities listed in Appendix A.
- 4.2.2 To ensure, in accordance with the Privacy Act (5 U.S.C. §552a), that, if applicable, a System of Records Notice (SORN) will be timely published for any systems that will maintain ACE data received from CBP. Furthermore, to ensure, in accordance with the E-Government Act of 2002 (Public Law 107-347, 116 Stat. 2899), that a proper Privacy Act Impact Assessment (PIA) is published.
- 4.2.3 To assist CBP, to the degree applicable, in the development of a mechanism for the electronic exchange of information with CPSC on importation of consumer products, as defined in §3(a)(5) of the CPSA, and other products and substances regulated by CPSC which are listed in Appendix B.
- 4.2.4 To coordinate with CBP regarding requests made under the Freedom of Information Act (5 U.S.C. §552) and Privacy Act (5 U.S.C. §552a) for information that may be jointly owned between CBP and CPSC. If the information sought is exclusively owned by CBP, CPSC will refer the request to CBP for processing.
- 4.2.5 To not disclose to third parties information received from CBP, for which CBP is the owner, unless CBP approves, in advance, the disclosure in writing.
- 4.2.6 To acknowledge its responsibility, pursuant to the Paperwork Reduction Act, for any unlawful release of information provided by CBP.
- 4.2.7 To the extent possible, to notify CBP of discrepancies identified in ACE data received by CPSC.
- 4.2.8 In accordance with contracting and procurement regulations, to provide through an Interagency Agreement for the transfer of funds contemplated by such an agreement. (Appendix D is reserved for attaching applicable Interagency Agreement(s).)
- 4.2.9 To provide CBP with an annually updated list (*i.e.*, a user list) of CPSC field locations and personnel accessing CBP-generated information from ACE.
- 4.2.10 To ensure that all CPSC employees or qualified contractors who access CBP information, either via the ACE Portal or system-to-system access, shall meet the ACE/ITDS Security requirements. (See Appendix C.)

- 4.2.11 To ensure that adequate security measures are in place and utilized to protect access to CBP information. (See Appendix C.)
- 4.2.12 To allow CBP to periodically audit security measures utilized by CPSC for accessing ACE and related ACE data. (See Appendix C.)
- 4.2.13 To provide CBP with information to fulfill the stated purpose of this MOU, in particular, product-specific data elements for all products regulated by CPSC.
- 4.2.14 To engage in timely exchanges of security-related information with CBP related to critical infrastructure vulnerabilities, threat intelligence, and commercial security activities, such as with the Commercial Targeting and Analysis Center (CTAC) and/or the Customs and Trade Partnership Against Terrorism (C-TPAT) and related initiatives.

5. OTHER PROVISIONS

5.1 Confidentiality:

- 5.1.1 The information described in this MOU is transferred between CPSC and CBP under the authority of 44 U.S.C. §3510(a), the SAFE Port Act, Public Law 109-347, and section 17(h) and 29(f) of the CPSA (15 U.S.C. §§ 2066(h) and 2078(f)), with the express understanding that the respective agencies are subject to and responsible for implementation of the Federal Information Security Management Act of 2002 (FISMA), 44 U.S.C. §3541, *et seq.*, the Privacy Act (5 U.S.C. §552a), the E-Government Act of 2002 (Public Law 107-347, 116 Stat. 2899) and the Office of Management and Budget (OMB) regulations, and any other regulations concerning information security that are in effect at the time of transfer.
- 5.1.2 CPSC and CBP personnel are subject to the Trade Secrets Act (18 U.S.C. §1905), which imposes personal liability upon Federal employees who disclose confidential commercial information contrary to the provisions of this Act.
- 5.1.3 The Parties understand and acknowledge that the information collected under each agency's respective legal authority and maintained in CBP's systems is highly sensitive commercial, financial and proprietary information, exempt from disclosure pursuant to the Freedom of Information Act (FOIA)(5 U.S.C. §552(b)(4)) and prohibited

from disclosure by the Trade Secrets Act (18 U.S.C. §1905).

- 5.1.4 CPSC and CBP agree that the information obtained from the other will only be used for the stated purposes and missions of this MOU and will not be disseminated to third parties outside of CBP and CPSC without the express written permission of the other.
- 5.1.5 The information should only be reviewed by authorized CPSC and CBP personnel on a need-to-know basis and should be kept secure. (See Appendix C.)
- 5.1.6 In accordance with 44 U.S.C. §3510(b), in the event that CBP and/or CPSC are sued in a civil action arising from an unlawful release by either CBP or CPSC of the ACE data which is related to this MOU, each agency acknowledges its own responsibility for assisting the Department of Justice in defending such lawsuit.
- 5.1.7 Unauthorized disclosure of information of CBP or CPSC information may result in denial of future access to the respective information.

5.2 It is Mutually Understood and Agreed That:

- 5.2.1 The above provisions will be exercised to the extent authorized by law, as consistent with Department of Homeland Security (DHS), CBP, and CPSC statutes, regulations, and directives, in support of the respective agencies' missions. DHS and each of its components are not considered "third parties" for purposes of this Agreement and therefore, transfers of information to DHS and any of its components are not considered third party disclosures under the terms of this Agreement.
- 5.2.2 This MOU is a formal expression of the purpose and intent of the Parties.
- 5.2.3 The Parties may jointly develop and implement additional agreements and plans to help fulfill the stated purpose of this MOU.
- 5.2.4 Transfers of funds contemplated by this MOU will be made in accordance with an Interagency Agreement. (Appendix D is reserved for attaching applicable Interagency Agreement(s).)
- 5.2.5 Public release of any data on the value or volume of imports is subject to the requirements of Office of Management and Budget Statistical Policy Directive Number 3. Parties authorized to access and/or release information obtained under this MOU are responsible for ensuring that no covered data, in any form, is released

prior to the official release of the international trade statistics without the approval of OMB.

6. ADMINISTRATION

- 6.1 The terms of this MOU may be modified upon the mutual written consent of the signatories or their statutory successors.
- 6.2 Amendments to the Standard Data Set and Listing of Legal Authorities (See Appendix A) or HTSUS list (See Appendix B) will be made through the issuance of an amended Appendix defining the amended fields.
- 6.3 Request for amendments to the Standard Data Set should be submitted to the CBP Point of Contact listed at the end of this document.
- 6.4 The general guidelines of this MOU may be supplemented by specific guidelines in accordance with local needs, subject to approval by both parties hereto, and to the degree necessary, with the guidance of the International Trade Data Base (ITDS) Board of Directors or its successor entity.

7. DATE EFFECTIVE

This MOU shall become effective upon the date of signature by the authorized agency representatives.

8. TERMINATION

Either party may revoke this MOU upon one hundred twenty (120) days written notice.

9. SEVERABILITY CLAUSE

Nothing in this MOU is intended to conflict with the current laws, regulations, or directives of DHS and CBP or CPSC. If a term of this MOU is inconsistent with such authority, then that term shall be invalid, but the remaining terms and conditions of this MOU shall remain in full force and effect.

10. EMERGENCY SITUATIONS

In the event that a national or regional disaster disrupts communications between CPSC and CBP, an emergency contingency plan shall become operational. The procedures of that system are to be agreed upon in Appendix E to this MOU.

CBP reserves the right to suspend, interrupt or modify as necessary any information sharing operations that are the result of this MOU during times of

national emergency as indicated by changes in the Homeland Security Advisory System.

11. NO PRIVATE RIGHT OF ACTION CREATED

This MOU is an internal government agreement and does not confer, grant or authorize any rights, privileges or obligations on any persons other than the undersigned parties and their official representatives.

12. RELATIONSHIP TO OTHER AUTHORITIES

Nothing in this MOU is intended to restrict CBP or CPSC from taking any action that the agencies would otherwise be authorized to take under law.

13. CONTACT INFORMATION FOR LIAISON OFFICES

The following offices will act as liaisons between CPSC and CBP for the purpose of coordinating the implementation of this MOU:

Appendix C

ACE SYSTEMS SECURITY

ITDS Security implementation for use of ACE

I) Purpose

This Appendix identifies the security requirements necessary for a Participating Government Agency (PGA) to obtain access to U.S. Customs and Border Protection (CBP) Automated Commercial Environment (ACE) through the ACE Portal or a Virtual Private Network (VPN) connection. If applicable, the security requirements for system-to-system interfaces will also be documented in the Interconnection Security Agreement (ISA) for ACE access.

II) Definitions and Background

For the purpose of this appendix "PGA" is the co-signing agency, in conjunction with CBP, of the ACE Memorandum of Understanding that this appendix is supporting. For the purpose of this appendix, "PGA personnel" are defined to be employees or qualified contractors of, or assigned to, the PGA with a job function that relies on capabilities provided by ACE. ACE User Roles are, and will be, defined to limit access to only those capabilities required to perform jobs consistent with the PGA's legal authority. An ACE User Role has an associated set of qualifications for a person to be assigned that role. Being assigned an ACE user role means being granted the privileges necessary to perform specific ACE functions and access specific ACE data.

Access to ACE by PGA personnel imposes security requirements on the PGA to adhere to common procedures for security administration, incident reporting, and security training and awareness.

III) Background Investigation Requirements for PGA Personnel

A) Current State of ACE Development

CBP requires that all ACE users have a completed, favorable background investigation (BI). The type of background investigation that will be required for ACE will depend on the level of access to ACE that will be provided. Initially, all PGA personnel with ACE User Roles will require a U.S. Office of Personnel Management OPM Type 25 (Public Trust) Background Investigation (OPM BI).

B) After Implementation of Security Data Filters

The OPM BI requirement will remain in effect until data security filters are developed in ACE. Once developed and in place, the data security filters will limit the access of the respective PGA to only data for which it has legal authority. CBP will notify the PGA when the data security filters have been implemented.

Once the data security filters are in place, background investigation requirements for ACE User Roles will be determined by the capabilities of the respective ACE User Roles. ACE capabilities will be measured against the risk/impact associated with a breach of Confidentiality, Integrity, and Assurance to establish a security categorization level, consistent with definitions provided by Federal Information Processing Standards (FIPS) 199. A security categorization for an ACE User Role will be determined by applying the high-water mark methodology of the FIPS 199 to the security categorization level for each ACE capability assigned to the role. The high-water method compares the anticipated level of risk and impact where two or more may exist and assigns the most stringent standard. The high-water methodology would also be used to determine the background investigation requirement for PGA personnel needing multiple roles. Accordingly, the type of background investigation for each ACE User Role defined for future ACE drops will be determined by CBP, based on the anticipated level or risk and impact the User Role will have on the ACE system. High Risk/Impact and Low Risk/Impact are detailed as follows:

- High Risk/Impact – An ACE User Role with a high security categorization level will require an OPM BI, i.e., full-field Background Investigation which has been conducted in accordance with the criteria in the Provisional system established by the Federal Personnel Manual (FPM) subchapters 1 – 4, January 1994. Some examples of the high security categorization level would be Role Administration (see below), Reference File administration and Targeting.
- Low Risk/Impact – An ACE User Role with a low security categorization level will require a Minimum Background Investigation, (MBI) as defined by DHS MD 11050.2. With this level of clearance the PGA will be able to see data that it has legal authority to view. The PGA will also be allowed to create and maintain its agency's license, permits and certificates, as well as input its findings.

(Note: with the decision that the Cargo Enforcement Reporting and Tracking System (CERTS) will be the system of record for exam findings and the security requirements for CERTS not fully defined for PGAs, access to input and retrieve findings may have to be moved to the full BI standard.) PGA personnel with an MBI

clearance will be allowed to read and write their agency's specific data. This level of security clearance will only be allowed once the data security filters are operational.

In general, when data security filters are available the following types of background investigations will be necessary for the listed ACE User Roles:

- Capability to impact master data will require an OPM BI;
- Capability to view data to which the PGA has legal authority will require a Minimum Background Investigation;
- Capability to enter data associated with the PGA exercising its regulatory authority will require a MBI; (see note above)
- An ACE User Role with a high security categorization level will require an OPM BI, regardless of the security filters;
- The PGA Role Administrator role will always have a high security categorization level and therefore, an OPM BI (see Section 4A below).

C) Background investigations must be periodically updated.

Per DHS MD 11050.2 dated 01/05/05, the requirement for reinvestigation is once every ten (10) years. Per Office of Personnel Management and Department of Homeland Security policy, the 10-year reinvestigation will be a Modified Background Investigation. CBP will periodically conduct audits to verify compliance with these requirements.

IV) Security

A) Administration

The PGA agrees to designate a "Role Administrator" who will act as the PGA's ACE System Control Officer (SCO) and who will be responsible for implementing CBP's security policy for ACE use. The PGA Role Administrator will serve as the single point of contact within the PGA for general ACE access and use issues. The PGA Role Administrator responsibilities will include, but not be limited to:

1. Coordinating the designation and assignment of ACE access for the PGA's personnel who are determined to need access to ACE,
2. Granting access and assigning ACE user roles by creating ACE user accounts and assigning privileges for PGA personnel,
3. Ascertaining and documenting security qualifications for PGA personnel to whom ACE portal access is granted to include:

- a. Verifying U.S. citizenship;
- b. Certifying successful Background Investigation;
- c. Maintaining security relevant records, including an original signed and dated copy of the DHS Rules of Behavior; (See Attachment A)
- d. Ensuring appropriate security training and awareness as well as privacy awareness training is provided to PGA personnel who are granted access;
- e. Recertifying at appropriate intervals, currently defined as yearly;
- f. Providing CBP with an updated list of PGA locations and personnel accessing CBP generated information from ACE.

The PGA Role Administrator will terminate privileges for a user(s) immediately upon termination of employment, after a security incident or after a 120 period of inactivity.

B. Security Training and Awareness

The PGA Role Administrator role will require specialized CBP Systems Control Officer (SCO) training. PGA Role Administrator training will be provided by CBP.

The PGA will take steps to ensure that its personnel receive appropriate annual security training and privacy awareness training through CBP or ITDS-provided web-based training, annual agency security training, and other PGA user training.

Additional information may be found in the *CBP Information Systems Security Policy and Procedures*, CIS HB 1400-05C handbook.

C. Incident reporting

As the custodian of both the data and the processes in ACE, CBP is required to document all security infractions. All known or suspected security violations of CBP systems must be reported to CBP's Computer Security Incident Response Center (CSIRC). Accordingly, the PGA SCO agrees to notify CBP CSIRC whenever a security violation occurs. The PGA SCO should immediately notify CBP CSIRC of any security violations that are known or suspected. The PGA SCO should provide the following information in all security infraction reports: Name of PGA; User ID of Violator; and Nature of the Violation.

Security violations may be reported directly to the CBP CSIRC at 1-703-921-6507 or via email at: cbp.csirc@dhs.gov.

D. Audit

The PGA understands and agrees to allow CBP to periodically audit all security measures utilized by the PGA for accessing ACE and related ACE Data.

GLOSSARY

“Jointly Owned” – jointly owned data is information which both CBP and the PGA have both statutory authority and regulatory authority (with OMB approval) to collect.
