- The group shared their coded data from the CPSRMS -21 data CPSC shared. The group decided on some tweaks to the columns of data including adding some more choices in some categories, only tracking property damage since the other results were tracked by CPSC, and grouping the columns by candle issues, accessory issues, etc.. Finally a "group discussion" column was added for unusual incidents.
- The group decided to review different CPSRMS – 21 consumer complaint data next with the changes to the coding scheme.
- The next teleconference is scheduled for Wednesday February 7th, 2018 at 10am
