NON-CPSC ATTENDEES: 15.42 Subcommittee Labeling Task Group

SUMMARY OF MEETING:

Due to a fire alarm CPSC staffed missed half of the TG meeting. The TG has not reached consensus on height requirement of the label although they are open to the addition of a note in F2057 labeling section which refers to the appropriate height for visibility. The TG discussed how to incorporate/suggest the use of UL 1678 standard for manufacturers CSUs that are designed to support a TV.
