

US Consumer Product Safety Commission  
Log of Meeting

Subject: ASTM F15.10 Task Group Meeting on Updating F852, the standard specification for gasoline containers

Date: June 28, 2018

Location: Teleconference

Prepared By: Scott Ayers ([sayers@cpsc.gov](mailto:sayers@cpsc.gov), 301-987-2030), June 28, 2018

CPSC Attendees: Scott Ayers

None CPSC Attendees: Contact Len Morrissey of ASTM (610-832-9719 or [lmorris@astm.org](mailto:lmorris@astm.org)) or Phil Monckton ([PMonckton@scepter.ca](mailto:PMonckton@scepter.ca), 416-883-0627) for a list of attendees

Summary of Meeting:

The group met to continue to discuss the ballot comments on F852, the standard that covers gasoline containers.

Roland Riegel and Cheryl Atkinson had an off line conversation on cycle times for UV testing and whether material requirements and pressure requirements were both needed. The conditioning and leak testing from the FMD standard was transposed to F852.

Comments from Margrett Lewis and the first comment from Glen Carter were tabled for a dedicated discussion on FMDs.

Glen Carter's second comment was tabled until he was in attendance.

The next meeting on F852 will be Thursday July 19, 2018 from 2pm to 4pm EDT. A meeting on F2517, the child resistance standard was scheduled for Thursday July 12, 2018 from 2pm to 4pm. It is possible that the meeting topics will be swapped.
