Members of the ASTM International Subcommittee F08.22 Camping Softgoods met on July 23, 2018 at the Embassy Suites by Hilton in Denver, Colorado. The official meeting minutes may be requested from ASTM International.

The meeting was called to order by Subcommittee Chair, Reese White. After approval of the agenda and previous meeting minutes, the first item discussed was the ballot results of the new work item on camping mattresses. Xiaoran Shen lead the discussion on the received comments and proposed changes. The new work item is expected to be prepared for ballot in August 2018.

The next item discussed was the new work item to develop a new standard for the flammability and labeling requirements for tents. Heather Webb facilitated the discussion. The group discussed existing voluntary standards for tents, state requirements for tents, and new provisions being developed by the Canadian General Standards Board. The group also discussed available hazard data, including the CPSC staff report on Incidents Involving Tents released in May 2017. The scope of a possible new standard was also discussed and will be continued at the next meeting

The group will be notified of the next meeting when a date is determined.
