

U.S. Consumer Product Safety Commission
LOG OF MEETING

SUBJECT: Meeting with the working group for UL 507

DATE OF MEETING: February 26, 2019

LOG ENTRY SOURCE: Arthur Lee, ESEF

DATE OF LOG ENTRY: March 13, 2019

LOCATION: Marriott, Clearwater Beach, FL

CPSC ATTENDEE(S): Arthur Lee, ESEF

NON-CPSC ATTENDEE(S): For the list of attendees, contact Amy Walker
Project Manager for STP 507, [REDACTED]

SUMMARY OF MEETING:

The following topics were discussed during the meeting of the Standards Technical Panel for Electric Fans:

1. Status Reports from STP 507 Task Groups
2. UL 507 – Unattended Fans (Thermal Condition Performance Test)
General discussion of the proposal. The proposal was edited at the meeting. The task group will reconvene to consider the input from the discussion, including the following:
 - *Need a rationale how the 250% threshold was determined.*
 - *Current proposal considers an inconclusive result as a failure, consider providing other options.*
 - *Need clarification of unattended operation vs unattended area.*
 - *Take into consideration insulation breakdown over time.*
 - *General support to move proposal forward to preliminary review with edits made at the meeting and further edits made by the task group.*
3. UL 507 – Addition of End-of-Life Motor Testing for End Products
The proposal was withdrawn
4. UL 507 – Ceiling Fan Blade Bracket Test
General discussion of the topic.
5. UL 507 – Battery System Alternative, UL 2595
General discussion of the topic.
6. UL 507 – Switch Requirements when using UL 61058
There was support to move forward with an option for preliminary review.
7. UL 507/705 – Revision to Control Requirements
General discussion of the topics
8. UL 507/705 – Remote Software Downloads, UL 5500
General discussion of the topic.
9. Discussion of Industry Input of Possible Future Adoption of/Harmonization with UL 60335-1 and UL 60335-2-31, -2-65, and -2-80
General discussion of the topic
