

US Consumer Product Safety Commission  
Log of Meeting

Subject: Flammable and Combustible Liquids Code

Date: March 26 and 27, 2019

Location: Teleconference (meeting was in Quincy, MA)

Prepared By: Scott Ayers ([sayers@cpsc.gov](mailto:sayers@cpsc.gov), 301-987-2030), March 27, 2019

CPSC Attendees: Scott Ayers

Non-CPSC Attendees: Contact Diane Matthews ([REDACTED]) for a list of attendees

Summary of Meeting:

Contact Diane Matthews ([REDACTED]) for more details of this meeting.

This Correlating Committee meeting was convened to discuss any issues that may affect the NFPA 30 technical committees: Tanks, Storage and Piping Systems; Fundamentals; Operations; and Storage and Warehousing of Containers and Portable Tanks.

Several administrative issues were discussed including the still-vacant NFPA staff liaison position and the delays in the NFPA revision process of this document. NFPA believes that the revision process can get back on track and NFPA 30 can be released on time.

Each balloted item from the first draft revision was reviewed for negative comments and other issues. When a potential issue was identified, the committee discussed the issues and at times issued notes to the appropriate technical committee. No issues related to portable flammable liquid containers or flame mitigation devices were brought up or discussed.

The next NFPA 30 meeting was not scheduled.
