SUMMARY OF MEETING: Commissioner Baiocco and Dottie Yahr participated in a phone call with Brett Horn and Janet McGee, members of Parents Against Tipovers (PAT). PAT shared updates on the ASTM F15 committee's work on addressing furniture tipovers which include carpet testing. Based on IDI's examined by PAT, about 90 percent of incidents occurred on carpeted surfaces, and PAT believes carpet testing should be included in the ASTM standard. PAT stated they will be meeting with CPSC staff next week to further discuss ASTM's progress on the standard.
