## MEETING SUMMARY:

Dr. Kris Jatana from the Children Hospital at Ohio State University provided a brief update on incidents related to ingestion of small cells. In addition, CPSC staff provided means to the subcommittee for accessing data from the NEISS database on incident data that supports keeping “/!\ WARNING Serious injury can occur if swallowed” and possibly adding “or placed inside any part of the body (e.g. nose or ear).” The working group members will review the data provided by Dr. Kris Janata and review incident data from NEISS database.

The subcommittee also discussed the following:

- Splitting ANSI C18.2 Part 2 and harmonizing it with IEC
- ANSI C18.3 Part 2 over-discharge requirements
- ANSI C18.3 Part 2 “Keep Out Of Reach Of Children” icon
- ANSI C18.5 Part 2 – Development of Annex A on systems approach to devices incorporating secondary lithium cells/batteries
- Packaging standard
- Date and place of the next meeting

The details of discussions from the subcommittee can be obtained from MINUTES LOG from Carin Stuart, Energizer, ANSI C18-6 Chair and Khaled Masri, NEMA, Program Manager.

Next meeting will be on Thursday October 3, 2019 - NEMA – 1300 N. 17<sup>th</sup> St., Rosslyn, VA 22209.
