Summary of Meeting:

Contact Chris Bresee of AHRI [REDACTED] for more information about this meeting

This Flammable Refrigerant Safe Transition Task Force meeting focused on codes and standards. Nearly all the discussions related to administering the group and which stakeholders should be included in this group. It was decided that the fire service should be represented and several members took actions to find representatives of the fire service to potentially join. The group only discussed current codes standards and possible gaps exist for a short while. The group expects to spend more time focusing on gaps in the codes and standards in future meetings.

The next teleconferences are scheduled for July 12 and July 15 and may continue weekly or biweekly for a few months.
