

**LOG OF MEETING  
DIRECTORATE FOR ENGINEERING SCIENCES**

**SUBJECT:** Proposed ASTM Subcommittee for Weighted Products

**DATE OF MEETING:** July 15, 2019

**PLACE OF MEETING:** Virtual (teleconference)

**LOG ENTRY SOURCE:** Suad Wanna-Nakamura, Ph.D.

**COMMISSION ATTENDEES:** Suad Wanna-Nakamura (HSPP)

**NON-COMMISSION ATTENDEES:** Contact ASTM for attendee list.

**SUMMARY OF MEETING:**

The purpose of the meeting was to discuss the newly proposed ASTM subcommittee standard for Weighted Products, currently with 12 members, chaired by Dr. Carol Pollack-Nelson

The topics discussed during the meeting were:

- *Scope:* the subcommittee decided to limit the standard to “weighted blankets” and agreed to change the title previously specified as “Weighted Products” to “Weighted Blankets.”
- *Performance Requirements:* the subcommittee discussed ways to address dispersal of contents and seam strength.
- *Warning Labels:* the subcommittee discussed a possible limit on blanket weight and user age. A subcommittee member provided draft warning language in advance of the meeting and proposed a minimum user age of 3 years.
