

**LOG OF MEETING
DIRECTORATE FOR ENGINEERING SCIENCES**

SUBJECT: ASTM F15 Infant Inclined Sleep Products Labeling task group

DATE OF MEETING: August 30, 2019

PLACE OF MEETING: Virtual (teleconference)

LOG ENTRY SOURCE: Suad Wanna-Nakamura, Ph.D.

COMMISSION ATTENDEES: Suad Wanna-Nakamura (HSPP)

NON-COMMISSION ATTENDEES: Contact ASTM for attendee list.

SUMMARY OF MEETING:

The purpose of the meeting was to discuss labeling requirements specifically; placement, content, and format. The group discussed visibility per the definition of conspicuous in F3118 and considered options to increase visibility by making changes to the label location and font size. Task group members suggested using current standards for handheld carriers and infant bouncer seats as examples for label location. There was general consensus to revisit label content following the review and presentation of incident data task group findings.
