Summary of Meeting:

Contact Chris Bresee of AHRI ([REDACTED]) for more information about this meeting

This meeting focused on communication of flammable refrigerant safety. This meeting continued off where the last meeting (which CPSC did not participate on) left off.

The group reviewed a document which discussed issues and questions that installers, commissioners, operators, and servicers may have. The group identified many of the informational items that these groups would need and added it to the document.

The next meeting will be scheduled later after a Doodle Poll survey.
