Summary of Meeting:

Contact UL for more information about this meeting

This is a task group meeting of UL STP 30, which is tasked with developing the language for the new joint standard incorporating UL 30, UL 1313, and ULC ORD-30 together, which all cover flammable liquid containers.

UL prepared rough draft of a standard and the group reviewed several sections of that draft including proposed general requirements, pressure requirements, and some use and abuse tests. The group will continue to review the draft standard at the next meeting. UL will incorporate comments by the group before the next meeting.

The next meeting will be decided by a doodle poll, but could be as early as February 7, 2020.
