

LOG OF MEETING

DIRECTORATE FOR ENGINEERING SCIENCES

SUBJECT: ASTM F15.58 WK70724 Commercial Electric-Powered Scooters for Adults Sub Task Group Meeting

DATE OF MEETINGS: November 4, 2020

LOCATION: Teleconference

LOG ENTRY SOURCE: Lawrence Mella

COMMISSION ATTENDEE(S): Lawrence Mella

NON-COMMISSION ATTENDEES: James Berg, Kenneth L d'Entremont

SUMMARY OF MEETING:

The subtask group focused on the high level scope for latching devices. The group agreed that latching device requirements are meant to prevent any unintentional folding while riding and guard against potential lacerations. Additionally, the group considered other possible hinged components other than the steering column. For example, the individual handle may fold. The group brainstormed standards to reference such as the bicycle requirements in CFR Title 16, Part 1512.
