

U.S. Consumer Product Safety Commission
LOG OF MEETING

SUBJECT: Meeting of the U.S. TAG to ISO/TC 229 (Nanotechnology)

DATE OF MEETING: December 10, 2020

PLACE OF MEETING: Teleconference

LOG ENTRY SOURCE: Joanna Matheson (HSTR)

COMMISSION ATTENDEES: Joanna Matheson (HSTR)

NON-COMMISSION ATTENDEES: Contact ANSI for a complete list.

SUMMARY OF MEETING:

On Thursday December 10, 2020, the U.S. Technical Advisory Group (U.S. TAG) to ISO Technical Committee 229 (ISO TC/229, Nanotechnology) met to hear a review of the discussions and actions taken during the ISO/TC 229 Plenary and Subgroup Virtual Meetings held November 2nd, 2020 to November 13th, 2020.

CPSC staff provided a brief summary of the recommendations provided by TC/229 working group 3 attendees on the CPSC proposed *Method for characterizing and quantifying nanomaterials released from wood products*. Additional U.S.TAG members volunteered to participate in the proposed project.

The U.S. TAG voted approval for the U.S. to submit a new work item proposal to ISO/TC 229 to develop Liposome terminology. In addition, the U.S. TAG voted to approve with comment the revision of *Quantification of nano-object release from powders by generation of aerosols* for publication as an ISO Technical Specification for TS 12025.
