SUMMARY OF MEETING:

Mr. Crowley presented the task group (TG) with an addition to the proposed scope to clarify which sleep products were covered by the standard. One member asked if the TG's intention is to ballot the draft proposal in order to assist CPSC staff with the final rule package. After some discussion the TG agreed to ballot the new title, introduction, and scope with a clear rationale to try to offset negative votes from members who are not familiar with why the standard is being changed. Mr. Crowley is going to clean up the draft proposal and send to the TG members for approval and then it will go to ASTM for full ballot. A subcommittee meeting will be scheduled for after the ballot closes to discuss ballot results. The meeting adjourned.
