

**LOG OF MEETING  
DIRECTORATE FOR ENGINEERING SCIENCES**

**SUBJECT:** Meeting of the ASTM F15.21 Hand Held Carrier Slip Resistance Inconsistencies

**DATE OF MEETING:** 23 December 2020

**PLACE OF MEETING:** Virtual (teleconference)

**LOG ENTRY SOURCE:** Hope Nesteruk (ESMC)

**COMMISSION ATTENDEES:** Hope Nesteruk (ESMC), Vineed Dayal (LSM)

**NON-COMMISSION ATTENDEES:** Contact ASTM for attendee list.

**SUMMARY OF MEETING:**

The subcommittee chair began the meeting by stating that one of the test labs brought up the issue that there appear to be some inconsistencies between the slip resistance testing. The test lab that raised the issue was not on the call. The group agreed to put together a questionnaire on the test procedure for the labs to answer regarding surfaces and cleaning. Once the chair has information from the test labs, the group will review the results and identify factors that need to be addressed for consistency.
