MEETING SUMMARY:

The agenda for this meeting was to continue to review the Toy Association comments on the draft ASTM *Standard Guide for Ensuring the Safety of Connected Consumer Products*. The Connected Products subcommittee reviewed part of the Toy Association's comments through section 4 during the February 28th subcommittee teleconference. A task group was formed to review the remaining comments in sections 4 and 5.

During this teleconference, the task group reviewed "Section 4. Procedure", made editorial changes, and planned to continue reviewing "Section 5. Conformity Assessment" on March 13 to complete editorial review of the draft.

Another ASTM Connected Products full subcommittee teleconference was scheduled for April 3rd to complete subcommittee review of the draft and unresolved comments.
