SUMMARY OF MEETING: Due to the ongoing Coronavirus Disease 2019 (COVID-19) child-resistant package testing firms alerted CPSC staff that they are unable to conducting testing in accordance with the Poison Prevention Packaging Act (PPPA). Four testing firms presented on the limitations they are experiencing due

to the pandemic. Even moving forward, limitations may be implemented that continue to hinder the ability to test to the requirements of 16 C.F.R. section 1700.20. A formal proposal with suggested modifications to testing standard is forthcoming and will be submitted to CPSC staff within the week.
