**Meeting Summary:**

**Ballot results:** Ballot F15(21-02) Item 008 (horizontal axis swing motion definition) received 2 negatives, one found to be persuasive. This will go back to the task group for revision. Item 009 (age and developmental information consistency) passed with no negatives or comments and item 010 (battery ad hoc language) received 1 negative, which was withdrawn with editorial changes.

**Task group (TG) reports:** The strangulation on tethered straps TG met in April. During that meeting, staff discussed the current issue with the requirement, testing and definitions. Staff requested the TG (then and again during this SC meeting) to provide photos of tethered straps in juvenile products to discuss and to revise the requirement, testing and definitions. The TG is scheduled to meet on May 10<sup>th</sup>, 2021.

**Next steps:** Items 009 and 010 will move forward to publication.
